### Milestones and associated tasks

	Milestone				Description	Status
	Build 1.1 Complete					Upcoming
	Tasklists	Priority	Progress	Status		
	Build 1.1					
	seems to be some issues with the padding - some text goes right to the edge					
	Setup Portal Staging Environment		100%	Completed 27 Apr (2015)		
	Custom space on newsletter template not editable		100%	Completed 27 Apr (2015)		
	Custom space (slot #2) in the newsletter template is not editable - meaning we cannot replace that image with another, it just stays there. This needs to be resolved immediately as we have a newsletter that goes out on Thursday but we have to send one of them out tomorrow morning. The space on the template currently has the Get Out Get Active ad.					
	Flyer links on MIC		100%	Completed 24 Apr (2015)		
	Each store needs to be able to view EN and FR flyers.					
	Wrong language showing up when user opens link from newsletter			Not Started		
	Article language is correct, but the widgets are in the wrong language.					
	Inside U online store banners			Not Started		
	Hi Marcus, This is the code to replace their existing iframe with the "headbox" div please let me know if you guys have any questions. Thanks! 	MIC - Provide ER Diagram and Flowchart			Not Started		
	Hi, Could you please provide Mary Entity Relationship diagram and flowchart of the MIC if you have any. This is to help her fully understands the whole system and it would be of great help in finishing her tasks on time. Thanks					
	Web - Banners Alignment		100%	Completed 27 Apr (2015)		
	Please test a few of the sites and verify what we believe in that it is the images themselves that are inconsistent, not the code.					
	Web - Article Header		100%	Completed 27 Apr (2015)		
	Remove Posted and align date with header text					
	MIC - eNewsletter Change Form		20%	Started		
	Build out the change form for Member and Admin based on the wireframe found at http://9ir5fw.axshare.com/					
	Missing Images on Server		100%	Completed 20 Apr (2015)		
	Get the old GoDaddy server running to get the missing images holder image.					
	Add to a text file the changes for this build.					

Minimize the repos for download. Split them into two if needed.
