	• Investigate unique query solution	Please investigate and recommend a solution that will work in as many scenarios as possible to prevent browser content from caching in any form.	15 Feb (2015)	16 Feb (2015)	Not Started
	Change Log	Create an ongoing changelog that is submitted to git in a folder called Changelogs each month. Changelog is any change made to the build. 	Owner Role	In Teamwork there is a role called "Owner". This role can only be assigned to one person and can delete other Super Admins, or change their role. We would like to implement the Owner role in UI Tracker. Please let me know how much effort this will take.	16 Mar (2015)	16 Mar (2015)	90%	Started
