Setup New Staging Server	Please setup the latest version of the UI Tracker on this server. Moving forward, this server will be the official staging server and therefore must be tested thoroughly each time a build is posted. The current uitracker.onemotion.ca is designated as the dev server, which doesn't need testing as thoroough on deployment.	27 May (2014)	27 May (2014)	Precy M.		100%	Completed 04 Jun (2014)	None	None	Nor

Review and Add these bugs/changes	1. Org dropdown in claim should not show "Organization/Claim State" when user is at bottom of tree and only states are left 2. Why are we abbreviating States in the SUTA tables? 3. Bugs in Tax center: 1. When I edit a tax rate and then try to create a new one, the UI Account # and Claim State are disabled. 2. Don't force adding decimals on data entry, but if no decimals are entered, just pad with .00's (proper amount per column) 4. Fixes for Tax Center 1. Client Admins should be able to add and edit their own tax rates 5. Why is charge date not validating properly (claim #700021)? 6. Charge amount can be 0.00 7. Employer Chargeable % needs to have 4 decimal places on loss of focus 8. Check on Protest Letter button	02 Jun (2014)	04 Jun (2014)	Precy M.	medium	100%	Completed 03 Jun (2014)	None	None	None
Review bugs with Josh	When entering credits and charges, the dates are not saving when you hit the "save" button. I can go in after and reenter the dates (because the rest of the entry is saving) and then they will stay in there (both Payment Date and Charge Date are doing this). When I enter Reported earnings into the Credits and Charges area, I entered 100.00 twice (adding the proper amount of "0"'s to ensure I had the decimal right) it changed the entry to 1.00 when I saved it. Does the same thing when I entered 200.00 - changed it to 2.00. When I try to save my progress on an unfinished claim by hitting the "Save Progress" button, it is trying to make me enter a "Separation Date". There should be no required fields when I am saving progress (other than name, SSN, and Claim Effective Date or Claim Ending Date - one or the other must be there). Everything else can be added later before hitting "Finish Claim". There is no button to enter a newly "Reopened Claim". This needs to be added so they can be entered. The "Protest Letter" button is not there to download the regular Protest Letter on the Demo site. I want to be able to show that letter. The flag for a charge that is during a period of ineligibility no longer shows up. I entered an ineligibility for the period of charges in the same claim as the one above this entry and no flag showed up on the charge. This was also working before.
